

Smitto Frying Range

If you are looking to set up your own mobile Fish & Chip business, then KFE can assist with the Smitto Frying Range

Smitto was originally founded in 1913, manufacturing ovens for the bakery industry. This later expanded into fryers that were recognised for their reliability and capacity. Their lightweight makes them the perfect quality frying solution for the fish and chip mobile and trailer industry. Over the years various models have been designed and manufactured offering that same durability and quality, with every range custom built to your own requirements.

Currently the 3 pan, one chip box Pesci Smitto range is proving to be the most popular equipment for operators demanding the best in mobile design.

Mobile fish and chip catering is becoming increasingly popular and recently, National Fish & Chip Award winning brands The Bay, Kingfishers and Simpsons have all expanded their businesses by taking on mobile Fish and Chip vans. To meet the needs of these award winning brands that all operate to such a high, industry leading standard, we introduced an enhanced and improved frying range suitable for mobile fish and chip businesses.
